

HORIZONTAL RESERVOIRS

ALUMINUM SERIES (STEEL COVER)

The aluminum horizontal reservoirs have a bolt on steel top. The design incorporates a low, center sloping bottom profile with tapped mounting bosses directed into the bottom of the reservoir body. Each reservoir is supplied with a steel cover, cover gasket & hardware, sight gage and filler breather.

Standard Features:

1. (1) Steel cover plate
2. (1) Mini breather (3/4 inch NPT)
3. (1) Cover gasket
4. (1) Set cover mounting hardware
- * 5. (1) 3 inch G1620 Series sight gage on capacities of 3 gallons; (1) 5 inch GT623 Series sight gage on 8 gallon capacity
6. Drain plug

7. Materials

- Aluminum reservoir body
- Carbon steel cover
- Buna N seals
- Gray polymer breather
- G1620 Series - aluminum construction sight gage
- GT623 Series - transparent molded nylon sight gage with black powder coated steel guard

CAUTION:

• Reservoirs are not designed for internal positive or negative pressure applications. For these applications, consult the factory.

NOTE

- Sight gage and filler breather shipped loose inside reservoir
- Industry accepted design practice for hydraulic systems limits maximum operating temperature to 180° F (82° C), but materials used for fabrication of the reservoirs are capable of operating between -40° and 212° F (-40° and 100° C)
